# Upper Merion Township Schools

As we leave our Alma Mater, we are quite aware of the "growing pains" of our fine township. In our school experience, we saw our school system reach a new high in becoming an accredited school.

Our township, because of the turnpike, suddenly became the center of attention throughout this section of the state. King of Prussia, known to many local residents as "The King", emerged from an obscure, little-known hamlet into one of the East's major traffic centers.

Our schools, we know, will meet the challenge of providing a fine, basic, well-rounded education for the many new boys and girls who will become neighbors in our larger community.
