

Dedication of New School

Since April, 1953, the students and faculty had been anticipating the completion of our new Gulph Road Elementary School. The dedication ceremony of the school took place Saturday, December 19, 1953.

The administration is headed by Carmen F. Storti, Supervisor of Elementary Education and Agnes C. Cotton, Principal. Dr. Warren H. Cocklin, Superintendent of Schools, also has his office in this building.

The facilities of the school are convenient and modern, and afford all possible opportunities for a more complete education.
