THEN AND NOW

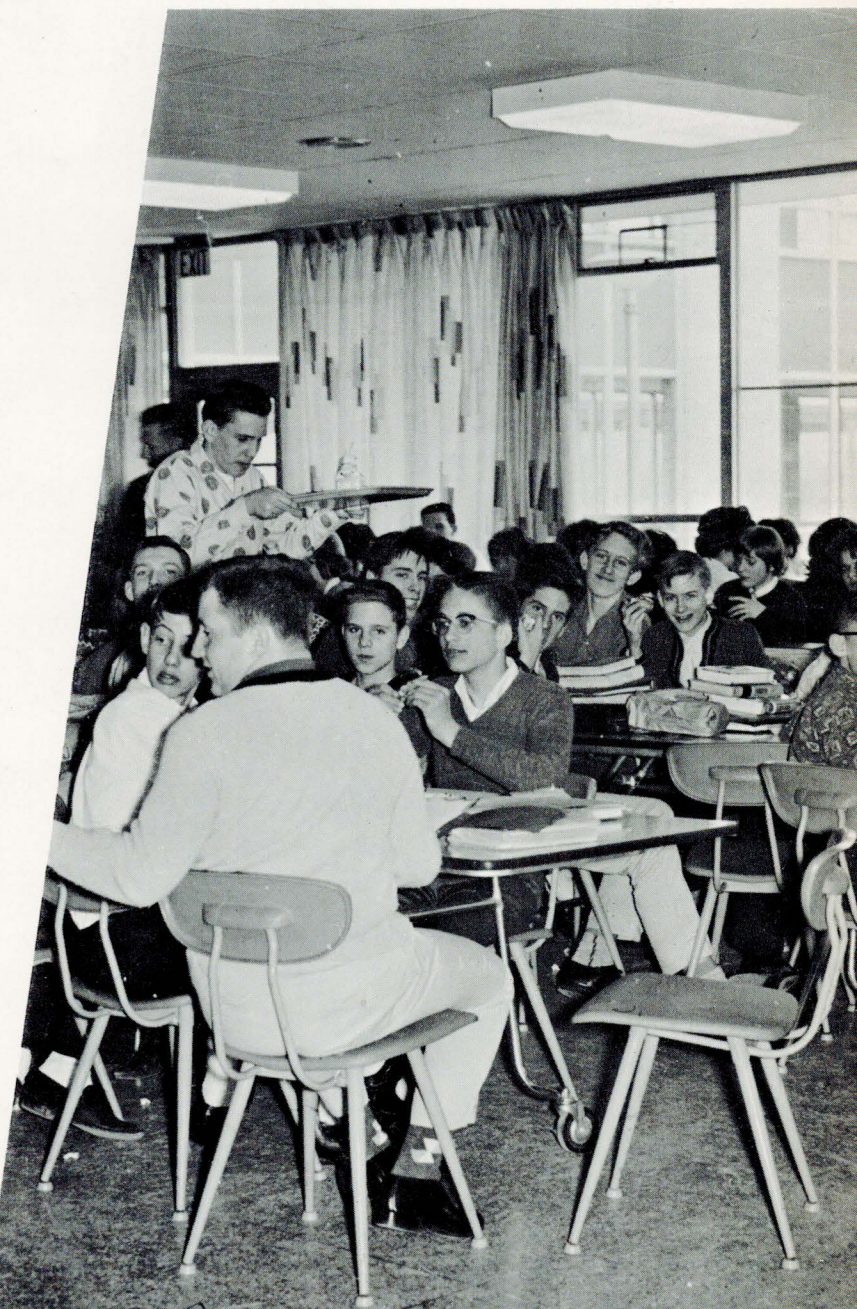

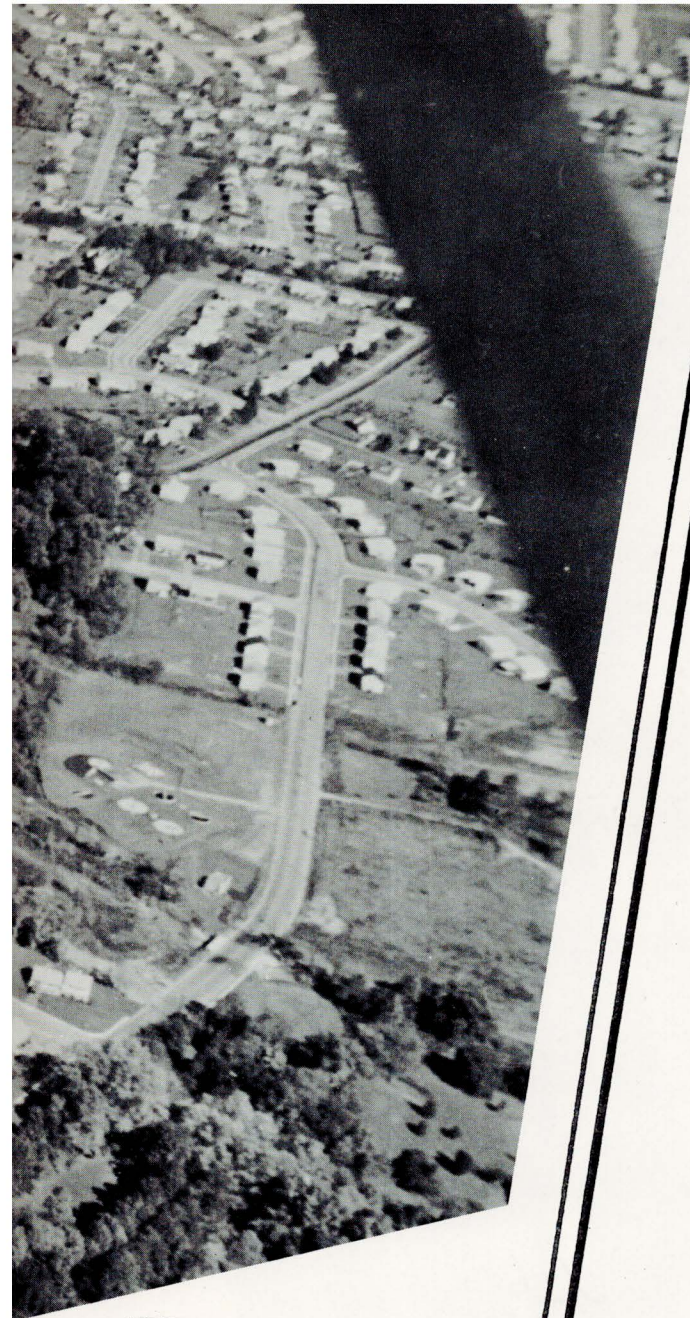

The Class of 1962 has spent many enjoyable hours in both of the buildings pictured. Many of us were first exposed to the older building when we began ninth grade. Even though it did not have the modern facilities that our present high school has, we will never forget the wonderful hours we spent there together. But, even closer to us are the memories of our days spent in the new high school. We are the second class to graduate from the new building and have done our best to leave behind a strong, proud tradition. The class of 1962 wishes the best of happiness in the new high school to the classes of the future.
